PROFILE

Litt Sixx is a luxury artisan candle brand owned by two sisters; Tyla & Tyyan. Their love for the finer things and candles led them to produce a brand that represented the culture, the music we love and the luxury quality that we crave. The brand is a series of six fragrant categories, which embody a modern twist with luxury components that reflects the culture. The candles are made with a premium soy blend wax, the finest essential oils and an all-cotton wick which come together to produce a clean burn and even scent throw. Even better all the candles are hand poured and tested in the USA to ensure their quality standards.

The six fragrant categories include: Clean, Fruity, Floral, Toasty, Woodsy and Exotic scent families which are all named in tribute to a song which is reflective of the mood that the particular uniquely curated scent produces. The initial candle releases are named So Fresh & So Clean, Boujee, Savage, Amber Ambition, Long Walk & Foreign Skies respectively.

The candles are poured into luxury matte glass vessels and luxe metal tins which epitomize their luxury quality and the sleekness and style of the brand that can fit into almost any decor style. The burn times are as follows: 7.5 ounce Chic Glass- 40 hours and the 14 ounce Luxe Glass- 65 hours which create an everlasting aromatic experience. Not to mention the vessels can be repurposed and all of the eco-friendly products correlate with the eco-friendly mission.
